Please use the communication tools which are in place to assist you and your student at BHS: MySchool Mail, Student Portal, Schoolnet Parent Portal, planners, teacher email addresses. (Please note documentation will be provided in hard copy on request.)

MySchool Mail - a BHS listserv via email that is out sent to parents with brief updates, school information, and other events with VBCPS. You may subscribe to MySchool Mail through the BHS website.

Student Portal (a.k.a. Microsoft SharePoint) - A student's work space where students can save work, view documents on-line, and access other portal sites such as class sites for due dates pertaining to specific class assignments. Student Portal is provided by the division for each student and is password protected. Students can access their portal via the BHS website.

Schoolnet Parent Portal - is a powerful on-line tool that parents and guardians can use to monitor their child's academic progress in school. Register for Schoolnet Parent Portal on the BHS website.

Teacher Web Pages - are accessed through the BHS website, left side navigation bar, "Teacher Web Pages" link. Although it is similar to Student Portal in that documents, due dates, and information can be accessed for a particular teacher, it is not an area in which students can save their own work. Note: Most teachers use either their web page OR Student Portal. Just ask!
